

Versatility defined

Versolon™

A universe of solutions for you

Proven, tested products

Meeting your diverse needs with PPG Versolon solutions

PPG Versolon solutions offer hard-working finishes that can be applied to products or equipment, large and small. They can be used in production runs ranging from mass production to special one-of-a-kind jobs, or for repair and refurbishment projects.

From agricultural and construction equipment to trailers, wheels and sheds and much more, PPG offers a wide range of coating technologies to assure the right finish for the application.

For more than 100 years, PPG has created products and systems to address virtually every imaginable coating and service need, from the highest quality products, to best-in-class service and notable operational capabilities. PPG VERSOLON™ solutions bring you a complete universe of capabilities in one place, backed by a global leader in coatings innovation.

Innovative liquid coatings

Solventborne coatings

Formulated with advanced resin technologies, these solvent-based primers and topcoats range from quick dry enamels to innovative two component epoxies and urethanes.

AQUACRON® waterborne liquid primers and topcoats

These coatings deliver innovative technology and more environmentally responsible alternatives to solvent-based liquid coatings while presenting strong protection where flammability and solvent exposure issues are critical.

World-class powder coatings

PPG ENVIROCRON™ powder coatings deliver world-class protection for manufacturers and custom coaters who need beautiful levels of aesthetics and advanced performance.

Solvents & allied products

PPG has a complete sundry program that includes bulk, blended and custom solvents, as well as a complete line of painting supplies that includes masking tape, roller frames, covers, brushes and painter's plastic. With a full range of allied products such as pretreatment, adhesives, sealants and aerosols, we are your comprehensive coatings supplier.

Locally focused, world-class service

Not just know-how. Show-how.

Whether we're in the spray booths with your painters or writing product specifications, the *PPG Versolon* solutions team recognizes it's the service we provide that helps us build long-term relationships with our partners.

PPG offers training and expert guidance on the many types of spray equipment available for a wide variety of application environments. From airless to electrostatic, we work with our customers to develop custom recommendations on the type best suited to meet your special requirements.

From expert advice on choosing the right system for the job to product training and application guidance, you can always depend on PPG.

Solutions well-versed in your industry

Our cutting-edge coatings technology is formulated to deliver powerful protection against challenging and aggressive environments no matter which industry you're in. And, your local *PPG Versolon* specialist will work closely with your operation to identify and provide the customized surface protection you need while helping you maximize the efficiency of your operation.

- Agricultural & Construction Equipment

PPG knows color, chapter and verse

More and more of today's manufacturers require the ease, speed and quality of standard industrial colors. PPG has responded to this need by pre-formulating a wide range of in-demand colors for coatings applications.

Accurate matches, personalized color-matching and fast turnaround are delivered through the expert assistance of your local PPG Versolon distributor and PPG's industry-leading point-of-sale color-matching software.

Local inventory gets you what you need, when you need it

Once we understand your product needs and requirements, we cut down on the risk of just-in-time inventory management by customizing a tailored program specific to your company's usage. Then — through your local professional service center — we deliver the products you need, when you need them. Utilizing our local distribution, you will gain access to:

- Your complete product needs stocked locally for quick availability
- Local logistics management
- Delivery service

Our commitment to sustainability

Whether you plan to increase your energy efficiency, improve employee safety, or strengthen your pipeline of sustainable new products, PPG can work with your operation to improve your processes while formulating coatings to meet your VOC requirements. We're deeply committed to working with our customers to engage our communities and move towards a more sustainable future.
